

## PROPOSED ARCHIVAL OF APPROVED PRIME WORDS

Counter ID	Approved Prime Word Name	Justification for Archival
2777	AIRPORT-RUNWAY-ARRESTING-GEAR	Replaced by RUNWAY-END-ARRESTING-SYSTEM (20251). An ARRESTING-SYSTEM is associated with a RUNWAY END, rather than a RUNWAY, so the change in name more clearly conveys the actual meaning of the entity.
2778	AIRPORT-RUNWAY-ARRESTING-GEAR-FEATURE	Replaced by RUNWAY-END-ARRESTING-SYSTEM-REMARK (20271). The change is necessary because an ARRESTING-GEAR is associated with a RUNWAY END, rather than a RUNWAY. The addition of REMARK more clearly conveys the meaning of the entity.

## PROPOSED ARCHIVAL OF APPROVED DATA ELEMENTS

Counter ID	Approved Data Element Name	Justification for Archival
14251	AIRPORT-RUNWAY-ARRESTING-GEAR IDENTIFIER	Replaced by RUNWAY-END-ARRESTING-SYSTEM IDENTIFIER. An Arresting Gear is associated with a RUNWAY-END rather than a RUNWAY, which is how it is currently modeled. This change is needed to reflect this reality.
14250	AIRPORT-RUNWAY-ARRESTING-GEAR CODE	Replaced by RUNWAY-END-ARRESTING-SYSTEM ENERGY ABSORBING SYSTEM CODE. An Arresting Gear is associated with a RUNWAY-END rather than a RUNWAY, which is how it is currently modeled. This change is needed to reflect this reality.
15419	AIRPORT-RUNWAY-ARRESTING-GEAR HEADING ANGLE	Not needed. An Arresting System is associated with a RUNWAY-END, and the magnetic heading angle for the RUNWAY-END is found in SDE 60704, RUNWAY-END MAGNETIC HEADING ANGLE. The Arresting System would have the same heading angle as the RUNWAY-END with which it is associated.
14252	AIRPORT-RUNWAY-ARRESTING-GEAR INFORMATION CALENDAR MONTH CODE	Replaced by RUNWAY-END-ARRESTING-SYSTEM INFORMATION YEAR-MONTH CALENDAR DATE. An Arresting Gear is associated with a RUNWAY-END rather than a RUNWAY, which is how it is currently modeled. This change is needed to reflect this reality. Also, using the approved generic YEAR-MONTH CALENDAR DATE is a more efficient method of modeling year/month information.
14253	AIRPORT-RUNWAY-ARRESTING-GEAR INFORMATION CALENDAR YEAR IDENTIFIER	Replaced by RUNWAY-END-ARRESTING-SYSTEM INFORMATION YEAR-MONTH CALENDAR DATE. An Arresting Gear is associated with a RUNWAY-END rather than a RUNWAY, which is how it is currently modeled. This change is needed to reflect this reality.

## PROPOSED ARCHIVAL OF APPROVED DATA ELEMENTS

Counter ID	Approved Data Element Name	Justification for Archival
		Also, using the approved generic YEAR-MONTH CALENDAR DATE is a more efficient method of modeling year/month information.
14254	AIRPORT-RUNWAY-ARRESTING-GEAR LOCATION TEXT	Replaced by RUNWAY-END-ARRESTING-SYSTEM LOCATION TEXT. An Arresting Gear is associated with a RUNWAY-END rather than a RUNWAY, which is how it is currently modeled. The proposed change is needed to reflect this reality.
14249	AIRPORT-RUNWAY-ARRESTING-GEAR-FEATURE CHARACTERISTIC CODE	Replaced by RUNWAY-END-ARRESTING-SYSTEM-REMARK CODE. An Arresting System is associated with a RUNWAY-END rather than a RUNWAY, which is how it is currently modeled. This change is needed to reflect this reality.
